## WHEYLO KEY POINTERS

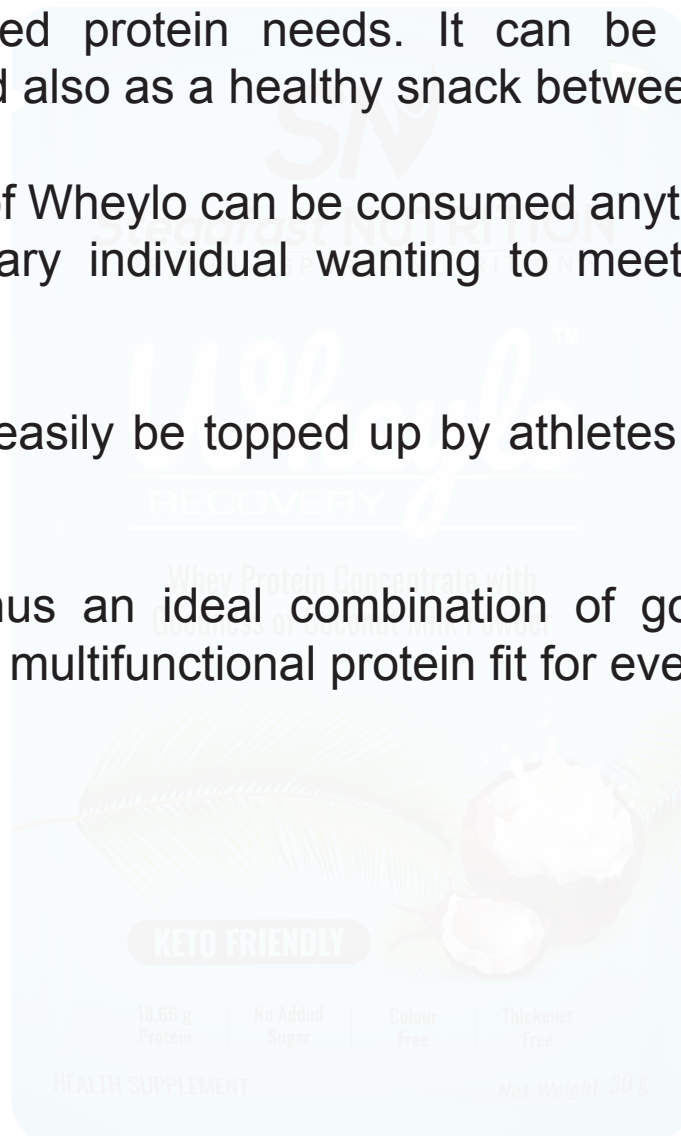

1. Wheylo contains whey protein concentrate which is easily digestible and ideal for meeting the daily protein requirements of athletes, and active as well as sedentary individuals.
2. The whey protein in Wheylo helps in lean muscle growth and repair and is ideal for both strength and endurance athletes.
3. Coconut powder provides the goodness of healthy fats in the form of MCTs (Medium Chain Triglycerides). MCTs are metabolised faster compared to other fats and can be directly used as a source of energy.
4. MCTs can potentially increase fat burning and reduce the need for carbohydrates during a workout. If a person is on a keto diet, these MCTs drive ketosis (a metabolic state in which the body uses fat for fuel instead of carbohydrates) which promotes fat loss resulting in lean muscle gain.
5. Wheylo is the ideal wellness drink that provides a balanced amounts of proteins and good fats but fewer carbohydrates.
6. It is naturally rich in Glutathione which is a powerful antioxidant and effectively protects our cells from oxidative damage.

## RECOVERY

### WHEYLO KEY POINTERS

7. 2 Sachets of Wheylo can be taken by active individuals to meet their increased protein needs. It can be taken along with breakfast and also as a healthy snack between meals.
8. One sachet of Wheylo can be consumed anytime during the day by a sedentary individual wanting to meet his daily protein needs.
9. Wheylo can easily be topped up by athletes with other protein supplements.
10. Wheylo is thus an ideal combination of good taste, healthy nutrition, and multifunctional protein fit for everyone.

# **INCREDIBLE ISOLATE™**

## **THE INSTANT RECOVERY FORMULA**

### INCREDIBLE ISOLATE™ KEY POINTERS

1. Incredible Isolate™ is a chocolate flavoured pure whey protein isolate, along with taurine and the digestive enzyme protease. It contains no added sugar, making it ideal to achieve a ripped and chiselled body.
2. It contains superior quality whey protein isolate that supports instant muscle recovery for athletes and fitness enthusiasts.
3. One serving of 30g of Incredible Isolate™ provides 25g of protein.
4. Incredible Isolate™ contains 11.4g of all nine essential amino acids that are quickly released into the body which prevents muscle damage and stimulates new muscle synthesis.
5. Consuming Incredible Isolate™ replenishes the lost stores and provides necessary nutrients to the body for recovery and regaining strength.
6. Taurine, a powerful antioxidant, improves the level of amino acids in the muscles, supporting rapid muscle recovery. Taurine also scavenges free radicles and minimises oxidative stress.
7. It is a low carbohydrate and fat formulation for building lean muscles.
